INTRODUCING

INOVEO

PLATINUM

INTRODUCING INOVEO PLATINUM.

Brighter, more versatile and wear resistant. Expanded capabilities and unlimited potential for improved manufacturing efficiencies. Inspiring new product collections are within reach. An industry first and the beginning of a precious metal revolution. Inoveo Platinum offers all of the benefits of platinum with the ease of white gold.

This new proprietary 950Pt alloy* delivers 5 distinct benefits to manufacturers:

4x less porosity

4x higher production yield

40% harder

Reduction in tool wear

Enables potential skills and tool transfer from white gold

*Patent pending

EXPANDED CAPABILITIES.

ENDURING BEAUTY.

ENDLESS POSSIBILITIES.

EXCEPTIONAL RESULTS.

PURITY

950Pt alloy
Featuring Ruthenium and
a proprietary mixture of metals

CASTING

Lower melting temperature
Higher fluidity

MACHINING

3-4x faster speed and feed
Precise, crisp cutting, drilling and milling

POLISHING

At least 40% faster
Lower rejection rate

SETTING

30% faster setting time
5-8x longer tool life

FOR RETAILERS

Brighter, whiter, longer lasting shine
Additional security for gemstones
Increased wear resistance and durability
